

## Assignment 3 – Building an Android Application using gallery and Google services

---

The app has following functionalities.

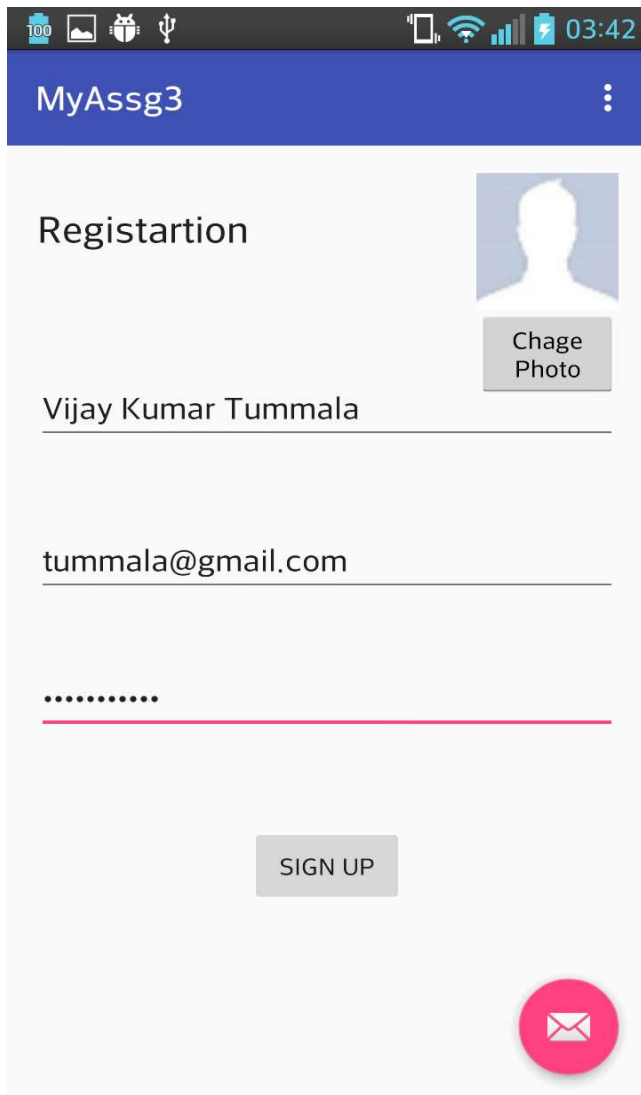

- Application allows user to sign up.
- Allows user to add a picture and sign up.
- Browse his gallery and picture.
- Display same on home registration screen.
- Sign into google maps with his data and access GPRS and display current location.

### 1. Sign in page

The screenshot shows the registration screen of an Android application titled "MyAssg3". The screen features a blue header bar with the app name and a menu icon. Below the header, the word "Registration" is displayed. To the right of the text is a placeholder for a user profile picture with a "Change Photo" button. Below this, there are three input fields labeled "Name", "Email", and "Password". At the bottom center, there is a "SIGN UP" button. In the bottom right corner, there is a red circular button with a white envelope icon, likely for email notifications or contact.

2. Add data to the registration page.

The screenshot shows a mobile application interface for registration. At the top is a status bar with icons for battery, signal, and time (03:42). Below it is a blue header bar with the text 'MyAssg3' and a three-dot menu icon. The main content area has a light gray background. On the left, the word 'Registartion' is displayed. To its right is a placeholder for a profile picture with a 'Chage Photo' button below it. Below the name field, the email 'tummala@gmail.com' is entered. A password field with eight dots is shown below the email. A 'SIGN UP' button is centered below the password field. At the bottom right, there is a red circular button with a white envelope icon.
